LETTER OF TRANSMITTAL

January 2, 1907.

To His Excellency,
JESSE F. McDONALD,
Governor of Colorado.

Dear Sir—I beg to submit the following report covering the work of the State Board of Health for the biennial period just ended. The work of the Board, owing to the small appropriation at its disposal, has been very much limited.

We have confined our efforts to the collection of vital statistics, and to aiding local authorities in controlling and suppressing epidemics of contagious diseases. Much work that could have been done with benefit to the State has of necessity been left undone. We have expended the ten thousand dollars appropriated for the biennial period, as well as the fifteen hundred dollars remaining in the emergency fund, which was placed at our disposal by your Excellency from time to time as emergencies arose.

During the calendar year of 1905 there were reported to this office 646 cases of diphtheria, 836 cases of scarlet fever, 441 cases of smallpox, 1,543 cases of typhoid fever and 9,079 deaths.

During the calendar year of 1906 there were reported 503 cases of diphtheria, 1,665 cases of scarlet fever, 265 cases of smallpox, 2,707 cases of typhoid fever and 9,805 deaths.

Diphtheria and smallpox have decreased; scarlet fever and typhoid fever both show marked increase. The increase of typhoid fever has been principally in the Arkansas valley, where the disease has been epidemic each season for several years, and is becoming more of a menace from year to year.

The principal epidemics that have occurred have been as follows:

In July, 1905, scarlet fever appeared in Leadville. The diagnosis was questioned by the health officer, placards removed and quarantine discontinued. Several peddlers visited the infected houses, exposing their wares, and in this manner infection was carried into the homes and families of others. Inspector Stemen was sent to Leadville. A conference was held with the mayor, members of the council and leading physicians of the town, and the situation discussed. Dr. Stemen explained the measures to be taken to check the spread of the disease, but there being some opposition from the health officer and his friends, it was necessary to inform the city authorities of Leadville that if the directions of this Board were not followed, it would be necessary to supercede them. An agreement was then reached, and Leadville was soon free from scarlet fever.

Early in November, 1905, scarlet fever appeared among the Mexican population of Las Animas county. Dr. T. J. Forhan, health officer of that county, instituted vigorous measures for the control of the disease, but in December appealed to this Board for assistance. Our inspectors were sent at once to assist him. Vigorous quarantine was established, and a house-to-house canvass of the county was made to discover unreported cases, schools were closed, and public gatherings of all character were prohibited. The commissioners of the county rendered valuable aid in cheerfully supplying such house guards as were needed. From the beginning of the epidemic until July 12, 1906, at which time the county was free from scarlet fever, some 200 cases occurred. Dr. Forhan is entitled to a great deal of credit for the firm and able manner in which he handled the situation.

During the first half of 1905, 233 cases of smallpox occurred in Fort Collins, Longmont, Loveland and the surrounding county. Inspectors Stemen and Sears were sent into this district to assist the local authorities, and after establishment of quarantine in all cases, and vaccination of the exposed, the epidemic was soon terminated.

From November, 1905, to March, 1906, twenty-nine cases of smallpox occurred in Cripple Creek district. On the advice of this Board, the school board of Victor issued a compulsory vaccination order. This

was opposed by the town council, and the matter was taken into court by the father of one of the pupils. The order was upheld as reasonable and proper. The Board was represented in this matter by our president, Dr. William H. Davis.

On July 20, 1906, a laborer came from Kansas to Lamar, at which place he broke out with smallpox and was quarantined, but the infection was carried by his companions to the various grading camps along the Arkansas river at Pueblo and Colorado Springs. A total of eighty-one cases occurred before the disease was stamped out.

With the exception of a few cases of smallpox at Trinidad and a localized epidemic at Erie, the State of Colorado is practically free from smallpox at this time.

In July, 1906, this office was informed by the Director of Census that the vital statistics now secured by this Board were sufficiently accurate to entitle Colorado to admission to the registration area of the United States for the collection of vital statistics. This rendered it necessary that our vital statistics should cover the calendar year. As soon as the tables are prepared they will be forwarded to your Excellency.

The Board advises that I suggest to your Excellency the need of new legislation on the following subjects: A statute governing the adulteration and misbranding of foods and drugs, as nearly uniform as possible with the federal food and drug act; a statute similar to that now in force in Pennsylvania regarding collection, registration and filing of vital statistics, the present sections of the law governing this question being unsatisfactory.

I would also call your Excellency's attention to the necessity of an adequate appropriation for this Board for the ensuing biennial period, at least \$25,000 per annum being needed. Of this amount \$7,500 dollars will be required for office expenses, clerk hire and the collection of vital statistics; \$5,000 will be required for laboratory expenses, and the remaining \$12,500 will be needed for controlling epidemics of contagious and infectious diseases, the abatement of nuisances, salaries of food and sanitary inspectors, traveling expenses of inspectors, etc.

In closing, I desire to acknowledge the valuable assistance and many favors extended to this Board by your Excellency.

Respectfully,

HUGH L. TAYLOR,
Secretary.
